

# BORDER BALLISTICS TECHNOLOGIES

## **BBT Environmental Policy**

Border Ballistics Technologies Ltd (the company) recognises the importance of minimising its impact on the environment and will comply with all environmental legislation, regulations and applicable codes of conduct in relation to its processes and activities within the scope of producing reamers, gauges and other tooling for gunsmiths. To this end, the company is committed to work with all regulatory authorities in protecting the environment including prevention of pollution.

It is the company policy to carry out all reasonable and practicable measures to constantly monitor its environmental impact in a process of continual improvement. Wherever possible, the company will assess the environmental impact due to its production of reamers, gauges and other gunsmith tooling in order to meet its objectives, which are to:

- reduce the amount of waste produced;
- reduce consumption of raw materials, water, electricity and other fuels;
- use recyclable and renewable materials in place of virgin or non-recyclable products where possible;
- limit the noise produced;
- ensure coolant leaks or spills are properly contained.

The company actively work to foster environmental awareness and an appreciation of the risks to the environment of all employees, suppliers, customers, subcontractors and other stakeholders due to their activities. The company will seek to provide any relevant information and assistance to customers on possible environmental issues due to the use of the company's products.

This policy is available on the company's website, [www.bbt.scot](http://www.bbt.scot).

This environmental policy is dated 27 November 2018 and has been devised by management to provide a framework for setting environmental objectives

To ensure the company's systems and policies remain effective in delivering the company's goals in relation to the environment, this policy should be reviewed before 27th November 2019
